Toby is a Degree Qualified Mechanical Engineer with a capability and experience base developed over 20 years through stringent and robust application of Lean and Six-Sigma methodology in various industries including Automotive, FMCG, Finance, Construction, Energy and Gas. Coupling his Lean/Six-Sigma expertise with an extensive background in Quality Management Systems (ISO9000, TS16949) and Senior Management positions within benchmark Lean/Six-Sigma organisations (Siemens VDO, Steggles, Boral). Toby also boasts a proven record of bringing about fundamental and long term Business Improvement across a client base ranging from SME's to large and complex multinationals.

Over the last ten years Toby has reinforced his project delivery skills with Coaching and Mentoring of project Managers, this has been further developed with a Master's in Business Administration. Toby is able to facilitate and bring about tangible and long lasting change through formal Continuous Improvement Programs and Project implementation into a range of organisations across multiple industries... organisations and environments which have the foresight and an appreciation on how Business Optimisation through proven methodologies such as Lean & Six-Sigma can take their businesses to the next level.
