David is a Degree Qualified Mechanical Engineer with over ten years experience in the development and implementation of long term corporate strategies, complex new products and facilities.

Major strengths lie in decision making and leadership skills. Recognised best for initiating change and continuously achieving challenging deadlines.

Key engineering strengths lie in project monitoring and governance, technical analysis of design, implementation of Lean Methodologies such as Kanban, Continuous Improvement, 5S, Poka-Yoke and Visual Management systems.

In addition to David's Engineering skills, he has a Masters in Business and Administration. More recently, David has transferred his experience and capability into the Learning and Development sector. In parallel to his formal qualifications and Lean experience, David is using his key leadership skills to implement various continuous improvement programs.
